- Maximum and minimum numbers apply
- Contact us for a quote

Everyday Response

This workshop is designed for front-line workers and specialist FDV service providers to strengthen their knowledge and skills in responding to clients using 'Response-based Practice' principles.

This training will use standardised risk assessment and safety planning tools to recognise client's responses to FDV as resistance. Provision for practical application of knowledge and skills is included in this training.

What will be covered

- What is 'Response-based Practice' (RBP)
- Signs of resistance as a response to FDV
- Responding to high-risk indicators using RBP principles
- Safety planning with clients using RBP principles
- Practical application of RBP skills

Who is this workshop for?

This training will be specifically facilitated to sector professionals such as refuge staff, crisis workers, outreach workers, allied health and welfare professionals as well as government agencies.

It is expected that staff will

- have existing understanding and knowledge of FDV and/or
- have attended our Everyday Response Workshop
